INTRODUCTION

For nearly a thousand years there has been a place of worship on this site.

It seems certain that a small Norman church stood here in the 12th century and over the centuries the church has been rebuilt, extended, and altered to suit the changing needs of the community.

A considerable part of the present building dates from the 15th century, built in the Late Perpendicular style typical of the period with large windows, high arches, and tall pillars.

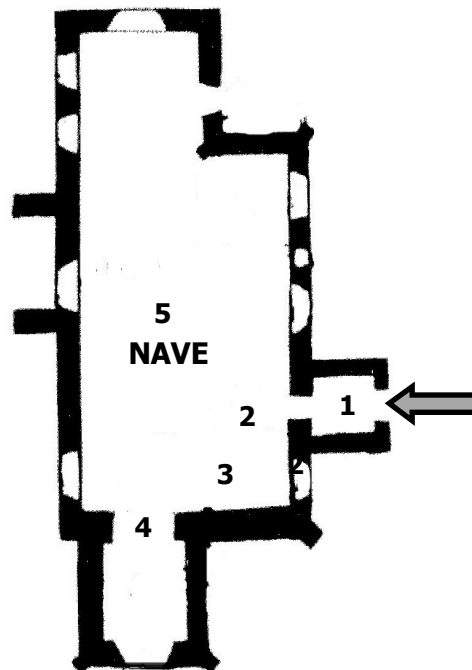

1 DOOR

Take a moment to look at the door. What do you notice about it? Run your hands over it and describe what it feels like. Put your hand on the latch and open it. Is it warm or cold?

Give the door a push and open it. Would you say it opens smoothly, is it heavy or light to push?
