

Conversation pieces for a memory and sensory trail

INTRODUCTION

The history of Temple Balsall starts in the 12th century when the Old Hall was the local headquarters of the Knights Templar. The church of St Mary the Virgin was built by the Knights Hospitallers about 1340 and restored by Sir George Gilbert Scott in the 1840s.

Today the Foundation is focused on the Care Home (the Court), the school, the church and the Leveson Centre for the study of ageing, spirituality and social policy. This follows the will of Lady Katherine Leveson who set up the foundation in 1674.

This trail looks at the court and the church.
